

## How to Calculate Your AES Ohio Bill Residential (Rate 241 - Summer) PIPP

You will need:

To verify you are on Rate 241- find the section near the middle of your AES Ohio bill labeled "Usage Detail", below which the column titled "Rate" should read 241.

Your monthly kWh Usage is to the left of your Rate number on your AES Ohio bill. See example below.

Usage Detail										
Service	Meter Use	Billing Period		Billing Days	Meter Reading		Multiplier	Usage	Rate	Rate Description:
		From	To		Previous	Current				
Electric	Estimate	05/02/2024	06/02/24	31	44074	44842	1	768	241	Residential Heating

To verify that your bill is within a 25 to 35 day billing cycle (also on your AES Ohio bill) - under "Usage Detail" find the column titled "Billing Days". NOTE: this rate worksheet will not correctly calculate bills outside of the 25 to 35 day billing cycle. Net Metering customers see second tab for rates.

To verify that your bill does not span across both a summer and a winter month (i.e. billing period of October 15<sup>th</sup> – November 15<sup>th</sup>). This rate worksheet will not correctly prorate bills that span across a summer and a winter month.

For Rate 241, you will need to find the total electric usage for the month.

**Input usage below**

kWh Usage:

**Total Bill** **\$ 142.88**

**Price - To - Compare** **0.081**

AES Ohio Delivery Charges:		
<b>Customer Charge (D18):</b>		\$ 9.75
A flat fee per billing period of	\$ 9.75	
<b>Other Delivery Charges:</b>
